STATINTL  
STATINTL

I realize the attached didn't happen on your watch as Director, but I do feel something of this nature should be called to the DD/A's personal attention. While we have complained to [REDACTED] about the IC Staff's handling of this matter and getting the Director committed to a [REDACTED] program in behalf of the Community, our punch is somewhat deflected by the fact that one of the Offices of this Directorate was intimately involved in providing technical and dollar estimates and "accepting the project" without a prior knowledge of this Office.
